L. O: To divide two digits by 1 digit with remainders.

Divide the objects into groups of $2,5,3,4$ and 8 .
Is the number divisible or does it have remainders?

| Number of counters | 2 | 5 | 3 | 4 | 8 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 24 | $\checkmark$ 12 | $\begin{gathered} \mathrm{x} \\ \mathrm{r} 4 \end{gathered}$ | $\begin{gathered} \sqrt{V} \\ 8 \end{gathered}$ | $\begin{aligned} & \sqrt{V} \\ & 6 \end{aligned}$ | $\begin{aligned} & \sqrt{V} \\ & 3 \end{aligned}$ |
| 16 |  |  |  |  |  |
| 20 |  |  |  |  |  |
| 19 |  |  |  |  |  |
| 35 |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
