L.O: To give reasons for why an object could be symbolic.

<https://www.literacyshed.com/piano.html>

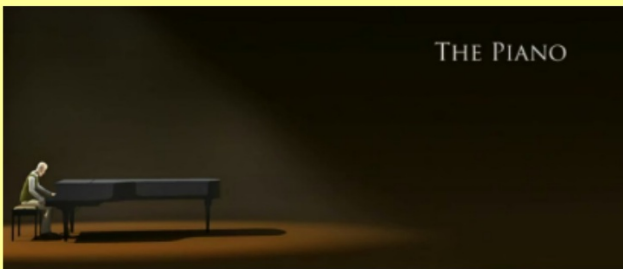

Who could these objects belong to?

SYMBOLISM

Symbolism is the use of **symbols** to represent deeper **meanings** or themes. **Symbols** are usually objects, which are easy to understand, but they represent something more complex.

→ The piano symbolises the key to the man's memories. When he plays the melody, it unlocks his most precious memories.

L.O: To give reasons for why an object could be symbolic

- 1) Explain how the images could be described as symbolism.
- 2) Cut each image out and next to it create a sentence describing what the symbolism could be.

E.g.

His wife sitting
beside him and
kissing his cheek.

This is symbolic as it shows that his wife will always love him, even when she is not there.

Support - match up sheet

Challenge - add in your own drawings of the piano, his wedding ring and the black and white wedding photograph and explain WHY they could be symbolic.
