

**Computing**

**PhotoStory guide**

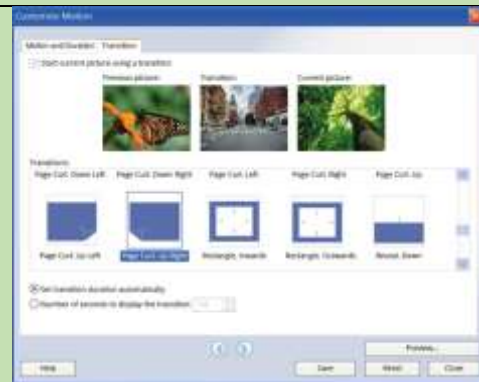

Open the application 'Microsoft Photostory' on your computer. In that select 'Begin A New Story' and click on Next.

Click on 'Import Picture'. Now, the files on your computer will appear. Select suitable pictures for making a video. There is a provision for editing the photo. If required, we can edit the image and then click on 'Next'.

We can add small text to the pictures if needed. Then click on 'Next' and give animation to the videos. We can give audio effects also to these images. After finishing this, click on 'Next'.

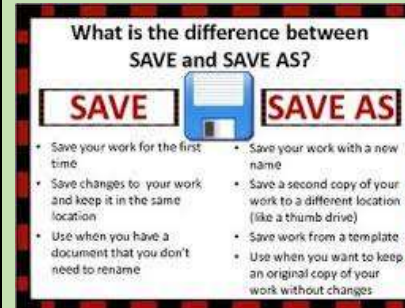

To add background music, we can select a music file through "Select Music" and then click on "Next".

**Year 4 Autumn Term Communicating Media**
