

Our school has a computer network, which links every Desktop Computer to the Server, via Network Switch. The switch is also connected to Wireless Access Points, which use WiFi to transmit data to laptops and tablets.

Chart
Information presented in a table or graph

Infographic
Information presented in a picture form

Internet
a global computer network providing a variety of information and communication tools

Network
A number of connections linking devices together

Network Switch
A device that connects multiple devices on a network with one another
