

L.O: make and describe 3D
shapes (solids)

L.O: To make and describe 3D shapes (solids)

Vocabulary

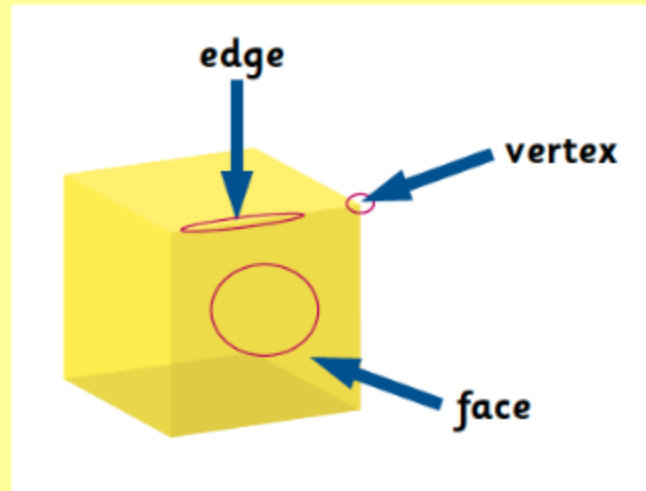

3D shape

edge

vertices

faces

solid

Do we need to clarify any of this vocabulary?

Talking frame:

A has

edges

vertices

and faces

Let's use this language when we are speaking today.

Use your clay, playdough....

to make:

- A cube
- A cuboid
- A sphere
- A cylinder
- A cone
- A triangle prism

- For each solid, use the speaking frame to describe it. If you don't have any dough you can describe the shapes on your word mat 😊
