

## Year 4 Maths Week Beginning 22nd June.

Hi Year 4, you will be carrying on with the unit on money this week. You will be estimating and ordering and then using all 4 operations with money. We will end the week with an end of unit assessment.

### Monday

Starter – open up the Starter PowerPoint and complete week 3 day 5

#### L.O: to estimate by rounding.

- 1) Click on the link to take you to a short BBC clip about rounding money for estimating costs.  
<https://www.bbc.co.uk/bitesize/topics/zh8dmp3/articles/zsvt97h>
- 2) Once you have reminded yourself about rounding, have a go at Activity 1. You will need the poster with the discounted toy prices and the 2 sheets with the different toy choices. There are 8 questions in total. If you would normally choose \*, please complete 3, if you do \*\* please do 4 and if you do \*\*\* then please complete 5 or all of them if you wish.
- 3) When you have completed activity 1, ask an adult to check it for you.
- 4) Now move on to problem solving and reasoning. It would be good for everybody to try at least one of the 2 questions.

### Tuesday

Starter – open up the Starter PowerPoint and complete week 4 day 1.

#### L.O: to estimate by rounding.

- 1) Open the Lesson PowerPoint.
- 2) Work your way through the short lesson PowerPoint, answering the questions as you go.
- 3) Complete activity 1. You can choose whether you do Diving (\*), Deeper (\*\*), or Deepest (\*\*\*).
- 4) When you have completed the sheet, ask an adult to check your answers.
- 5) If you would like to do more, have a go at the extra challenge sheet. Be systematic, work through the clues one by one, crossing off the prices it cannot be.
- 6) Ask an adult to check the answer sheet to see if you got it right.

### Wednesday

Starter – open up the Starter PowerPoint and complete week 4 day 2.

#### L.O: to compare amounts of money.

- 1) Open the lesson PowerPoint and begin to work through the slides, stopping to answer the questions.
- 2) When prompted, complete activity 1. You can choose whether to work on \*, \*\* or \*\*\*.
- 3) When you have completed the activity, ask an adult to check it for you.
- 4) Now have a go at the money game on twinkl go. Search Twinkl go and log in using the pin code QB3159.
- 5) Challenge yourself to answer more than I managed (40) in the time given.

### Thursday

Starter – open the starter PowerPoint and complete week 4 day 3.

#### L.O: to solve money problems using all four operations.

- 1) Work through the lesson PowerPoint, stopping to answer the questions.
- 2) When prompted, complete activity 1. Choose whether you want to try Diving (\*), Deeper (\*\*), or Deepest (\*\*\*).
- 3) When you have completed the activity, ask an adult to check your work.
- 4) If you would like another challenge, have a go at the extra challenge activity. There is a little more information for adults if they need it.

### Friday

- 1) Today you will be completing an end of unit assessment.
- 2) There is not a time limit and we would like you to do the test independently **if you are able to**.
- 3) When you have completed the test, let an adult mark it.
- 4) You could let your teacher know what your score is.
