My favourite memories

In Year 5 we sewed planets together and then sewed them onto a background of a blue piece of felt as part of our work on the Planets. It was really fun doing this as I like sewing.

Another was when in Year 6 we tested the growth of mould on bread for our science project. I could never forget that project as everyday when I went to my seat in the class (for almost six weeks) I would see the mould growing on the bread. As the mould grew the bread almost disappeared and boy if you were near it you could pass out from the smell. Luckily none of us spent too long near the rotting bread but it was very interesting. Lastly, I loved cake day which happened once every three weeks in Year 6. Everyone made delicious cakes and we all chomped them down as soon as we got our slices.

The lessons I found the most interesting

I found my maths lessons interesting because they were fun to do and they were challenging so you really had to focus and once you had completed it you felt really good. Also I really liked my lessons with Mrs Dawson and Ms Fear because I could just focus without any distractions and I really enjoyed the work and learned a lot.

My favourite events or trips

One my favourite trips was in Year 4 when we went to the Oaks Field Centre. It was a good time of year to go as it seemed to be sunny on most days. I loved it because we got lots of great food and we got to play loads of fun activities like ; archery, hide and seek and the mudder although this was freezing cold and muddy! After all the activities my team and I got some of the tastiest hot chocolate you could ever taste .Another was when we went to Condoover hall because i got to play laser tag and I also got to have great food. It was a lot like the Oaks but you got to stay for 5 days instead of 2 and I had a great experience there.

My best sporting achievement

One of my best achievements in sports was in football when my team and I got second place against the toughest teams in the whole of South Yorkshire although we never conceded a single game we came second on points which was a bit disappointing but we played exceedingly well.
