

Volcano Labelling Activity

Using the word bank, can you label the key features of the volcano?

Word Bank

ash cloud	magma chamber	main vent
lava flow	conduit	crater

Challenge: Write a definition of each word and add it to the word bank.

Volcano Labelling Activity Answers

Using the word bank, can you label the key features of the volcano?

ash cloud

The cloud of ash formed above the volcano from the force of the volcanic explosion. The ash can drift in the sky and fall back to earth.

magma chamber

A pool of magma beneath the volcano.

main vent

The main vent is the primary opening of the volcano through which the magma and other rocks and gases flow out.

lava flow

After erupting, some of the hot lava will flow down the sides of the volcano.

conduit

The underground passage through which the magma flows from the chamber towards the vent.

crater

The crater is the mouth of the volcano which surrounds the vent.

Volcano Labelling Activity

Using the word bank, can you label the key features of the volcano?

Word Bank

ash cloud	secondary vent	magma chamber	main vent
lava flow	layers of rock	conduit	crater

Challenge: Write a definition of each word and add it to the word bank.
