

Pandas

Pandas are the national animal of China. They are related to bears and have black eye patches.

What do pandas look like?

There are two different types of panda. The giant panda is the most well known but the red panda also lives in the mountains in China. The red panda has a long tail and is the same size as a cat. The giant panda is much bigger and has black and white fur. Both the red and giant pandas have long, sharp claws that they use to climb trees and strip bamboo.

What do pandas eat?

Pandas are very fussy eaters. Most pandas only eat bamboo, a type of grass. A giant panda will eat half their own weight in bamboo every day.
