

# Antony Gormley - sculptor

## Exposure, 2010

26 metres tall

Weighs 60 tonnes

## Angel of the North, 1998

20 metres high

54 metres wingspan

Weighs 200 tonnes

Many of Antony's sculptures are based on his own body.

He makes casts of his body to create the shape, using clay as a mould.

He fills the mould with different materials to create the body shapes.

Antony Gormley's work is often exhibited in unusual places.
