

Whitney says,

$8 \times 8$  is greater  
than two lots of  
 $4 \times 8$

Do you agree?

Can you prove your answer?

### True or false?

$$6 \times 7 < 6 + 6 + 6 + 6 + 6 + 6 + 6$$

$$7 \times 6 = 7 \times 3 + 7 \times 3$$

$$2 \times 3 + 3 > 5 \times 3$$

Can you find three different ways to complete each number sentence?

$$\underline{\quad} \times 3 + \underline{\quad} \times 3 < \underline{\quad} \div 3$$

$$\underline{\quad} \div 4 < \underline{\quad} \times 4 < \underline{\quad} \times 4$$

$$\underline{\quad} \times 8 > \underline{\quad} \div 8 > \underline{\quad} \times 8$$
