

Three children have incorrectly converted  $3\frac{2}{5}$  into an improper fraction.

Annie

$$3\frac{2}{5} = \frac{6}{15}$$

Mo

$$3\frac{2}{5} = \frac{15}{5}$$

Dexter

$$3\frac{2}{5} = \frac{32}{5}$$

What mistake has each child made?

Annie has multiplied the numerator and denominator by 3

Mo has multiplied the correctly but then forgotten to add on the extra 2 parts.

Dexter has just placed 3 in front of the numerator.
