

Machine	Examples	Picture
levers	<p>They have four important parts: the bar, the fulcrum (pivot point), the effort and the load.</p> <ul style="list-style-type: none"> • see-saws • oars • wheelbarrows • scissors • fishing rods 	
wheel and axle	<p>Most common of the simple machines. One part cannot work without the other. Force is used to turn one part, which then causes the other part to turn.</p> <ul style="list-style-type: none"> • screwdrivers • skateboards • doorknobs 	
pulley	<p>A rope or chain with a wheel and axle attached. Using it means that heavy loads can be lifted without much effort.</p> <ul style="list-style-type: none"> • lifts • cranes • wells
