Hi! Remember that to add fractions you need to make sure the bottom numbers are the same; then it's easy! I have done one for you to show you the way!!

1. $\dfrac{1}{5} + \dfrac{3}{10} = \dfrac{2}{10} + \dfrac{3}{10} = \dfrac{5}{10} = \dfrac{1}{2}$
2. $\dfrac{1}{4} + \dfrac{3}{8} = \dfrac{\square}{8} + \dfrac{\square}{8} = \dfrac{\square}{\square}$

3. $\dfrac{2}{3} + \dfrac{1}{6} = \dfrac{\square}{\square} + \dfrac{\square}{\square} = \dfrac{\square}{\square}$

4. $\dfrac{2}{5} + \dfrac{4}{10} = \dfrac{\square}{\square} + \dfrac{\square}{\square} = \dfrac{\square}{\square} = \dfrac{\square}{\square}$

5. $\dfrac{1}{4} + \dfrac{1}{8} = \dfrac{\square}{\square} + \dfrac{\square}{\square} = \dfrac{\square}{\square}$

6. $\dfrac{1}{10} + \dfrac{3}{5} = \dfrac{\square}{\square} + \dfrac{\square}{\square} = \dfrac{\square}{\square}$

Name:

Hi! Some more adding fractions.

1. $\dfrac{3}{4} + \dfrac{1}{8} = \dfrac{\square}{\boxed{8}} + \dfrac{\square}{\boxed{8}} = \dfrac{\square}{\square}$

2. $\dfrac{1}{3} + \dfrac{1}{6} = \dfrac{\square}{\square} + \dfrac{\square}{\square} = \dfrac{\square}{\square} = \dfrac{\square}{\square}$

3. $\dfrac{1}{5} + \dfrac{3}{10} = \dfrac{\square}{\square} + \dfrac{\square}{\square} = \dfrac{\square}{\square} = \dfrac{\square}{\square}$

4. $\dfrac{1}{2} + \dfrac{1}{8} = \dfrac{\square}{\square} + \dfrac{\square}{\square} = \dfrac{\square}{\square}$

5. $\dfrac{3}{10} + \dfrac{2}{5} = \dfrac{\square}{\square} + \dfrac{\square}{\square} = \dfrac{\square}{\square}$

6. $\dfrac{1}{4} + \dfrac{5}{8} = \dfrac{\square}{\square} + \dfrac{\square}{\square} = \dfrac{\square}{\square}$

7. $\dfrac{7}{10} + \dfrac{3}{20} = \dfrac{\square}{\square} + \dfrac{\square}{\square} = \dfrac{\square}{\square}$

8. $\dfrac{3}{10} + \dfrac{3}{5} = \dfrac{\square}{\square} + \dfrac{\square}{\square} = \dfrac{\square}{\square}$

Answers

Page 1

1. 1/5 + 3/10 = 2/10 + 3/10 = 5/10 = 1/2

2. 1/4 + 3/8 = 2/8 + 3/8 = 5/8

3. 2/3 + 1/6 = 4/6 + 1/6 = 5/6

4. 2/5 + 4/10 = 4/10 + 4/10 = 8/10 = 4/5

5. 1/4 + 1/8 = 2/8 + 1/8 = 3/8

6. 1/10 + 3/5 = 1/10 + 6/10 = 7/10

Page 2

1. 3/4 + 1/8 = 6/8 + 1/8 = 7/8

2. 1/3 + 1/6 = 2/6 + 1/6 = 3/6 = 1/2

3. 1/5 + 3/10 = 2/10 + 3/10 = 5/10 = 1/2

4. 1/2 + 1/8 = 4/8 + 1/8 = 5/8

5. 3/10 + 2/5 = 3/10 + 4/10 = 7/10

6. 1/4 + 5/8 = 2/8 + 5/8 = 7/8

7. 7/10 + 3/20 = 14/20 + 3/20 = 17/20

8. 3/10 + 3/5 = 3/10 + 6/10 = 9/10
