

LO: To explore the Anglo-Saxon alphabet and compare it to the alphabet we use today.

Below is the Anglo-Saxon alphabet.

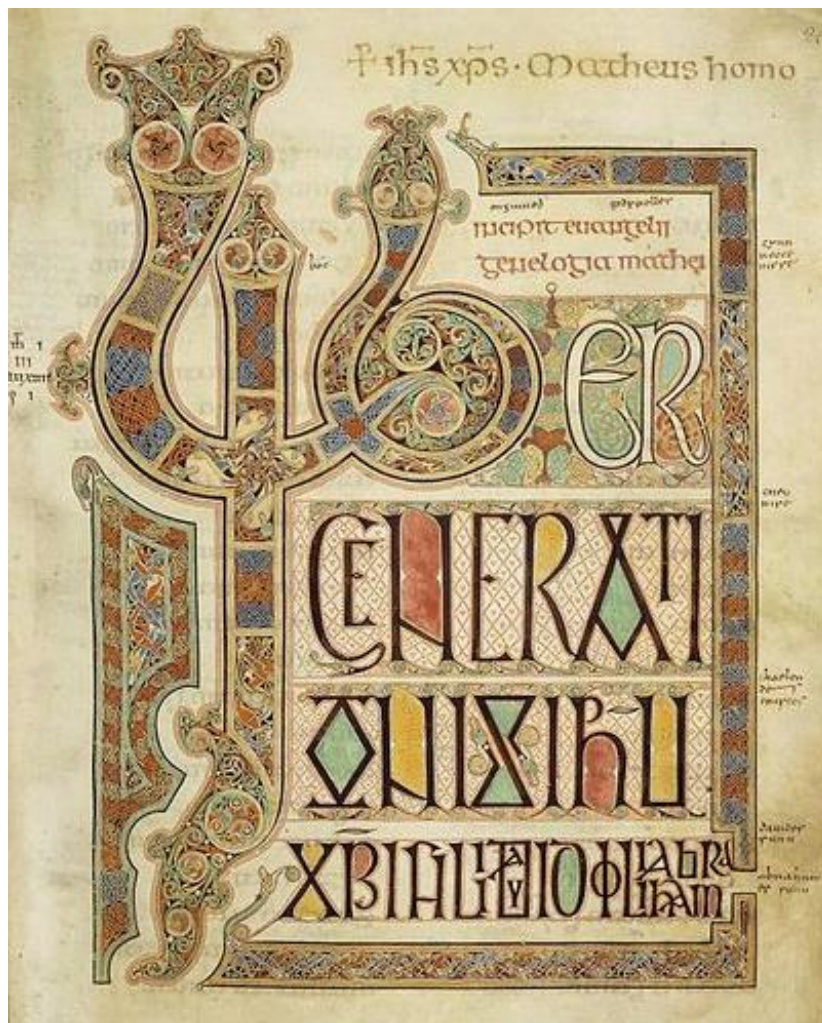

Task 1: Using the Anglo-Saxon runes above, can you write your name below?

LO: To explore the Anglo-Saxon alphabet and compare it to the alphabet we use today.

Task 2: On a separate piece of paper, can you either write your name or the first letter of your name in Anglo-Saxon runes/illuminated letters in a **decorative way**, using a whole page of A4? Read the Anglo-Saxon letter power point which tells you all about illuminated letters and see the **WAGOLL** for an example of what to do.

I have used an illuminated letter to start my name off and then the rest of the letters are in runes. Can you tell what my name is?

This is a page from an Anglo-Saxon book, possibly written around 700 AD.

Notice how they have used illuminated lettering for the start of the word and how it is very patterned and colourful.
