

LO: Recap Fractions of a set of objects

Page 1

Now try these:

Shade  $\frac{1}{3}$  of these shapes using the method from the first sheet.

$12 \div 3 = \underline{\quad}$

$\underline{\hspace{2cm}}$

$\underline{\hspace{2cm}}$

$\underline{\hspace{2cm}}$

$\underline{\hspace{2cm}}$

$\underline{\hspace{2cm}}$

Now, shade  $\frac{1}{4}$  of these shapes.

LO: Recap Fractions of a set of objects

Now try these:

Shade  $\frac{1}{6}$  of these shapes using the method from the first sheet.

$12 \div 6 = \underline{\quad}$

$\underline{\hspace{2cm}}$

$\underline{\hspace{2cm}}$

$\underline{\hspace{2cm}}$

$\underline{\hspace{2cm}}$

$\underline{\hspace{2cm}}$

Now, shade  $\frac{1}{5}$  of these shapes.

LO: Recap Fractions of a set of objects

**Answers:**

Page 1 - find  $\frac{1}{3}$

$$12 \text{ divided by } 3 = 4$$

$$6 \text{ divided by } 3 = 2$$

$$6 \text{ divided by } 3 = 2$$

$$12 \text{ divided by } 3 = 4$$

$$24 \text{ divided by } 3 = 8$$

$$21 \text{ divided by } 3 = 7$$

Find –  $\frac{1}{4}$

$$16 \text{ divided by } 4 = 4$$

$$8 \text{ divided by } 4 = 2$$

$$8 \text{ divided by } 4 = 2$$

$$24 \text{ divided by } 4 = 6$$

$$20 \text{ divided by } 4 = 5$$

Page 2 – find  $\frac{1}{6}$

$$12 \text{ divided by } 6 = 2$$

$$6 \text{ divided by } 6 = 1$$

$$6 \text{ divided by } 6 = 1$$

$$12 \text{ divided by } 6 = 2$$

$$24 \text{ divided by } 6 = 4$$

$$30 \text{ divided by } 6 = 5$$

Find –  $\frac{1}{5}$

$$20 \text{ divided by } 5 = 4$$

$$5 \text{ divided by } 5 = 1$$

$$10 \text{ divided by } 5 = 2$$

$$30 \text{ divided by } 5 = 6$$

$$20 \text{ divided by } 5 = 4$$
