What do you notice about the numbers?

The aim of the game in Top Trumps is to beat your opponent by scoring a higher number and winning their card. In this Roald Dahl version the categories are out of 100. The final RD rating is out of 10.

Imagine I had the Mr Twit card and I challenged my partner to Greed. Who would win if my partner had Miss Jennifer Honey?

Mr Twit Greed = 90 Miss Jennifer Honey = 0

I would win as my score of 90 is higher than my partner's score of 0.
